

HIGH  
STEPPE  
CLIMBING CENTER

## COVID-19 Guidelines

High Steppe Climbing Center participants are required to comply with new measures and protocols for personal conduct regarding the regulations outlined by state and local authorities. For the health and safety of our community HSCC is upholding the following guidelines.

- If you feel ill or are experiencing symptoms of illness, please stay home.
- Your temperature will be taken before entering HSCC. Anybody with a temperature above 100.4 degrees will be asked not to enter the facility.
- Climbers are expected to wash/sanitize hands upon check-in and leaving the facility. HSCC provides several sanitation stations around our facilities for convenience. Hand washing/sanitizing before/after an activity (climb, boulder, use of equipment) and throughout your visit is also expected.
- Masks or appropriate facial coverings are required to enter the facility. Participants are required to wear masks except when you are climbing.
- HSCC requires climbers to use chalk. We recommend the use of liquid chalk and allow chalk balls. Loose chalk is not permitted in the gym.
- Footwear (climbing shoes, street shoes, etc.) must be worn at all times – no bare feet.
- Climbers and staff are required to adhere to social distancing measures by maintaining 6 feet separation on all sides between you and fellow climbers. Family units and climbing partners are required to remain 6 feet from other individuals not in their group.
- Food and beverage containers must be stored with your personal belongings when not in use. Please try to fill your water bottles at home and do not leave them out/unattended when not in use.
- All transactions are encouraged to be processed using credit cards – cash not preferred.
- Bathroom use is limited to one user at a time. We ask users to check that the bathrooms are clear by calling out before entering.
